Summary

Aspiring Software Engineer with hands-on experience in React.js, Node.js, FastAPI, and Python. Skilled in building RESTful APIs and full-stack web applications, with experience integrating LLM APIs for AI-based features. Strong understanding of frontend development, backend services, and database management, supported by real-world project experience using modern web technologies.

Skills

Programming & Scripting: Python, JavaScript, TypeScript

Frontend Technologies: HTML, CSS, Tailwind CSS, React.js

Backend Technologies: FastAPI, Node.js, Express

Databases: MySQL, MongoDB

AI/LLM: LLM APIs (Gemini/OpenAI/Grok), Prompt Engineering

Projects

Project Management System (MERN Stack) | [Link](#)

- Developed a full-stack **web application to manage projects** and tasks efficiently
- Implemented **secure authentication using JWT** for user login and registration.
- Designed REST APIs for handling project and task operations (CRUD).
- Built responsive UI using React.js and Tailwind CSS.
- Integrated MongoDB for efficient data storage and retrieval.

Trade Opportunities Analyzer Application (Full Stack) | [Link](#)

- Developed a backend system to analyze stock **trading opportunities by sector**.
- Built REST APIs using **Node.js, Express.js**, and integrated **MongoDB** for storing trade and sector data.
- Implemented sector-wise analysis endpoints to retrieve and filter trading opportunities.
- Designed scalable backend architecture with **MVC structure** and modular API routes
- Tested APIs using **Postman** and ensured proper request-response validation.
- Integrated with frontend dashboard for sector-based market insights.

CRUD Application (Full Stack) | [Link](#)

- Developed a web application implementing CRUD operations for efficient data management..
- Designed and **integrated REST APIs** for handling user data.
- Built responsive frontend and connected it with backend services.
- Implemented database operations for storing and retrieving data.
- Ensured proper validation and error handling in the application.

Education

B-Tech in Computer Science

NRI Group of Institute Bhopal (M.P)

Graduate: 2021 – 25

7.60 : CGPA
